PROFESSIONAL PROFILE

Full Stack Developer with solid experience in operational digitalization and high-performance web applications. Specialized in transforming complex business needs into functional, scalable, secure, and user-centric software. Strong focus on practical business problem-solving, clean architecture, transactional security, and cloud integrations (REST APIs, relational databases, and secure authentication services).

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React.js, HTML5, CSS3, Responsive Design.

Backend & Databases: Node.js, Django, PostgreSQL, MySQL, REST APIs, CRUD Systems Architecture.

Tools & Methodologies: Git, GitHub workflows, Supabase (Auth & DB Relational Engine), SEO, WordPress, Agile Methodologies.

PROFESSIONAL EXPERIENCE

Full Stack Developer / Digitalization Specialist

Los Pinos Resort & Spa Termal (5★ Hotel) | Argentina | 2025 – Present

Technical leader responsible for the resort's operational digitalization and modernization, building custom software solutions that optimize business processes and increase overall efficiency.

- Developed and deployed "ReservaSpa", a custom guest booking and scheduling web application that automated real-time reservations and synchronized desk operations.
- Centralized and automated spa calendar management, preventing therapist double-booking issues and significantly reducing friction in the guest booking process.
- Designed the administrative dashboard featuring dynamic scheduling grids and PostgreSQL concurrent data locks to prevent double-booking conflicts.
- Led the development and launch of "Lost & Found", a security software system for tracking, recording, and legally auditing forgotten items at the resort.
- Achieved full digitalization of the lost-and-found workflow, eliminating handwritten paper logs in Housekeeping and Reception while securing legal compliance via automated PDF receipts.
- Architected relational database structures using Supabase, integrating secure authentication (Auth) and dynamic PDF document generators.

EDUCATION

Master's Degree in Full Stack Development | Conquer Blocks Academy | 2026

Continuous Professional Specializations: Modern API Consumption, Relational Databases, Load Speed Optimization, and SEO.
